

Associate Scientist – Bioassays

ABOUT FuGENE®

FuGENE® has been a family-owned biotechnology company in Madison, Wisconsin since 1996 when we developed the first ever commercial transfection reagent. Our sole mission ever since has been to allow the World to “See the Unseen” by providing the most technologically advanced transfection reagents.

WHY JOIN OUR TEAM:

We challenge ourselves every day to create an open, inviting, inclusive, and high integrity environment with collaboration, trust, and compassion. FuGENE offers a comprehensive benefits package which includes medical, dental, and vision care. Work life balance programs include paid time off for vacation/sick time, paid holidays and floating holidays. We work hard but respect the importance of family and free time and support a non-stress work environment with flexible work hours. We are proud to be an Equal Opportunity Employer, and make employment decisions without regard to race, color, sex, sexual orientation, or gender identity.

THE POSITION:

Responsibilities

- Run established bioassays
- Develop and optimize new bioassays
- Assist teammates by performing critical experiments
- Demonstrate independence in troubleshooting and solving technical problems
- Organize data and present research findings to project teams
- General lab operations and maintenance

Requirements:

- BS or MS with 2+ years of independent lab experience in biochemistry, molecular biology, pharmacology, or other related field of biology
- Experience in mammalian cell culture and cell-based assays
- Ability to work closely with a small team of scientists and senior managers
- Excellent problem-solving skills in assay design, data analysis and interpretation
- Exceptional verbal and written communication skills
- Self-motivated team player with the ability to thrive in a fast paced, multi-disciplinary, matrixed environment

Pay range:

\$60,000—\$80,000 USD (based on experience)
